

How to shut off your water

If you have a water leak in your water system that requires you to shut off the water, this is how you may do it.

Shut off for Main House Water & Irrigation Valves:

Turn the valve clockwise until it seats firmly to shut off the valve supplying water to the area you want off.

If the leak is between the District's water meter and your home you may shut off the water here:

Please call the District at (916)354-3700 between 8am-4pm Mon.-Fri. for further assistance.
