How to get your weather based sprinkler controller rebate.

- You must first call the Rancho Murieta Community Services District's (District) customer service at 916-354-3700 to see if rebates are available.
- 2. Install a weather-based sprinkler controller.
- 3. You may install the weather-based sprinkler controller yourself or you may hire a licensed contractor.
- Return the original dated receipt and/or contractor's invoice with the price, model and/or brand of weather-based sprinkler controller, and the completed application. Keep a copy for your records.
- Submitting a signed application represents agreement to have the District verify installation of the weather-based sprinkler controller with your accompaniment. The District will schedule an inspection.
- Maximum rebate is \$100 per customer account. Call RMCSD to verify the amount you are eligible for. Total rebate amount will not exceed money spent.
- The District will issue rebate checks within eight to ten weeks of receipt of your completed application materials.
- 8. The District is required to send IRS form 1099 to the customer and the IRS when rebates total \$600 or more.

Qualifications

- Purchase of material must occur within the program period of *July 1, 2024 through June 30, 2025*. The number of rebates is dependent upon the availability of program funds. Call the District to see if funds are available.
- The location of the landscape irrigation system must be served by the District.
- Residential, commercial, industrial, institutional and multifamily applicants are eligible.
- 4. New construction is not eligible for rebate under this program.

Permitting

Building permits are not required.

Disclaimer

The District reserves the right to deny an application of any participant who does not meet all requirements as outlined. The District reserves the right to change the terms of this program at their discretion. The District is not responsible for receipts or paperwork lost in the U.S. mail. The District cannot guarantee that installation of a weather based sprinkler controller will result in lower water utility costs. The number of rebates is dependent upon the availability of program funds. Applications will be processed, when all required information is provided by the applicant; on a first-come, first-served basis.
